Application for Graduate Admission

Supplementary Application – Survey and Data Science (SUDS)

Please upload the response to the questions below to the *Uploads Requirement* section (*Supplementary Application*) of the online application.

Desired Area of Concentration: Statistical Science   Social and Psychological Science   Data Science

List in chronological order the courses that you believe qualify for the prerequisite for your desired area of concentration in the MS program.

- For the statistical area, these are three courses in calculus, one course in linear algebra, and one course in statistics.
- For the social and psychological science area, there are two quantitative courses, at least one of which must be a statistics course, and at least two undergraduate courses in the social sciences.
- For the data science area, some background in computer science, with a minimum of two semesters of programming coursework, and also at least one semester of statistics.

When you believe you have taken multiple courses fulfilling the prerequisites, list up to eight such courses, choosing the best suited for the given area of concentration.

School	Term	Course Number and Name	Text*	Credit Hours	Grade
