Kuali Research Dashboard

The Kuali Research Dashboard is the user interface for KR, which provides tools to manage and search for relevant records based on your own preferences and action list. The Dashboard also provides access to full search tools and common menu items for each module.

Dashboard Home Page

When you log in to Kuali Research, the system will display the Dashboard Home Page, which contains Dashboard cards and an expandable navigation bar that allows users to access various resources in Kuali Research.

Dashboard Cards

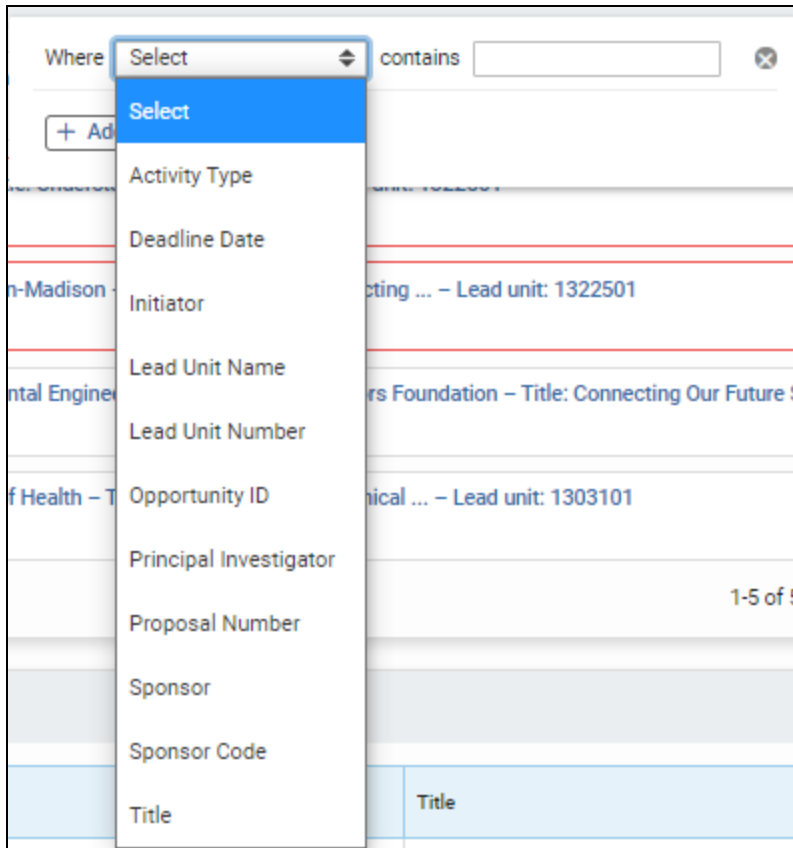

There are three dashboard cards that all relate to Proposal Development. Within each card, you may click on an item to open the record.

Collapse Menu

Collapse Menu (located in the lower left corner) allows you to expand the navigation bar to display the descriptions for each icon. This is helpful to familiarize yourself with the Dashboard Home page and you may choose to collapse the bar later and simply show the icons if you would like more screen space.

Filter

The filter allows you to limit the items shown in the dashboard card based on criteria you have selected. When you click on Filter, you will see a dropdown list of items for filtering.

Select the item you want to filter on and type in the date desired for that item. The filter is automatically added. You can click on Add a Filter to add an additional filter. To remove a filter, click on the  on the filter line.

Show/Hide Cards The Show/Hide Cards button in the upper right corner allows you to select which cards you want to show or hide.

Navigation Bar

The Navigation Bar on the left allows you to navigate to various sections of Kualu Research.

 Dashboard	Returns to the Dashboard Home page.
 Search Records	Search provides an all-in-one comprehensive search of Awards, Institute Proposals, Subawards, Development Proposals and other records.
 Common Tasks	Displays the most common tasks for each module in KR, which includes accessing full searches for each module, creating new records, and has a link to your action list.
 All Links	Displays links to various lookup tables for sponsors, organizations, and address book records as well as for commons tasks.
 Help	Opens a new window with a generic help guide. Please use the customized UMD-provided guides found on the ORA website here: Kuali Research Resources
 About	Lists the current version of Kualu Research.
 Logout	Allows you to log out of Kualu Research.
 Miller, Carolyn LaLumiere 	Displays the current user. If you click on this accidentally it will open up a new browser tab with your user information. You may simply close this tab and return back to your previous tab. You may also return back to Kualu Research by clicking on Switch Apps > Research Home.
 Switch Apps	Allows you to switch to different apps in the Kualu Suite. Please only use the Research Home and return to Kualu Research.
 Collapse Menu	Collapse Menu allows you to expand and collapse the navigation bar. When you expand you can see descriptions for each icon and when you collapse the bar you only see the icons for each item.

Common Tasks - Module Lookup Screens

Each module lookup screen contains various criteria to search on. See [Common Tasks - Lookup Screen Search Techniques](#) for specifics on how to do a search. There are three buttons at the bottom of the search screen.

- Search – performs search based on search criteria
- Clear – clears previously typed search criteria
- Cancel – returns to Kualu Research Dashboard page

Module Lookup Results List

When you click on search, the results list is displayed at the bottom of the lookup screen. If the item you are looking for is not in the results list, you can do another search from this screen.

Actions	Requisitioner
open medusa	Jason Michael Strahan

Click on open to view the details of the item. Or click on medusa to see the information of related items. To open in a new window, do a CTRL/Open or right click on Open.

Module Detail Screen

Tabs

Click on a tab to see the detail for that tab.

Expand All/Collapse All

Within each tab, there are expand all and collapse all buttons at the far right.

Expand all – shows the detail for all of the panels on that tab.

Collapse all – collapses screen back to just the panels headers for each panel.

Show/Hide

On each panel header, there is a toggle button – Show/Hide. If the panel detail is not showing, the Show button will allow you to see the detail. If the panel detail is showing, the Hide button will close the detail for that panel.

Close

There is a close button at the bottom of each detail screen. Clicking on close will return to the Kualu Welcome screen.

Browser Back/Forward Arrow

You can use the back and forward arrows on your browser for navigation. Because the Close button will return you to the Kualu Welcome screen, use the back arrow to return to the previous screen.

Detail Double Click

On any field that is blue, you can double click on it to get more detail on that value.

Open New Tab

To keep your current window on the screen it is on, right click on the Unit role. This will open a new tab at the same place. You can then navigate to a different section.

Special Icons

Indicates there is more information for this item. Click on  to view the information.

Indicates that the detailed information for this item is available. Click on  to view the details. There must be a value in the field in order for this to work.

On lookup screens, the  indicates that you can do a specific search on that item and return the value to the lookup screen.

The link icon indicates that you can get the URL for this screen. Click on the  to get the URL. You can then send it in an email, etc. to others; the URL will work only for those who have permissions to view the information in the link.

Common Tasks - Lookup Screen Search Techniques

Basic Searching

Across all the modules in Common Tasks, you may use the following techniques to perform searches on text fields.

Typing in search variables across multiple fields will act as an AND operator.

Clicking on the  next to a search field will do a secondary lookup for that particular item.

You may optionally use additional search operators below to further limit your results.

NOTE: These do NOT apply to the all-in-one “Search Records” page.

Operator	Name	Example	Comment
*	Wildcard Any Char	Title: *apple*	Search for “apple” anywhere in the title, regardless of number of characters
		Title: apple*	Search for “apple” at the beginning of the title
		Title *apple	Search for “apple” at the end of the title
?	Wildcard One Char	Title: ?ffect*	Search for a word that has any one character that precedes “ffect” (e.g. “affect” or “effect”) in the beginning of a title
		OR Unit ID: 1??????	Search for all UMD items
(Vertical Bar)	OR	Lead Unit: *apple* *orange*	Search for “apple” OR “orange” in any order
&&	AND	Title: *apple*&&*honeycrisp*	Search for “apple” AND “honeycrisp” in any order
!	NOT	Title: *apple*&&!*tree*	Search for “apple” but not “tree”
..	SERIES	Lead Unit: 1330101..1330103	Search records with Lead Unit from “1330101” to “1330103” (Just like combining Greater Than or Equal to and Less Than or Equal to)
>	GREATER THAN	Lead Unit: >1330101	Search records with Lead Unit Greater than “1330101”
>=	GREATER THAN OR EQUAL TO	Lead Unit: >=1330101	Search records with Lead Unit Greater than or Equal to “1330101”
<	LESS THAN	Lead Unit: <1330101	Search records with Lead Unit Less than “1330101”
<=	LESS THAN OR EQUAL TO	Lead Unit: <=1330101	Search records with Lead Unit Less than or Equal to “1330101”
	SERIES	Lead Unit: >=1330101&&<=1330103	Just Like SERIES (..) above. Search records with Lead Unit from “1330101” to “1330103”

Note: To ensure you get a complete set of UMD records returned, type in 1?????? in Unit ID. Due to KR logic and the results being limited to 500 records, leaving this field blank may cause KR not to return all records.

Note: If you are on a Person LookUp/Search page, type in 01 in the Campus Code field to limit the search to UMD persons.

Tip: students are included in person searches. To exclude students, type !N in the Employee Type Code field.

For items that have a  on the right, you can click on the  to do a search on that item and return a desired value.

Search Records Page

The Search Records page provides a comprehensive all-in-one search of Awards, Institute Proposals, Subawards, Development Proposals, and other records based on your search criteria. It is most useful when you need to search across multiple document types (Award, Institute Proposal, Subaward, etc.).

The screenshot shows the 'Search Records' header. Below it is a search bar with a dropdown menu labeled 'Search everywhere' and a text input field containing 'Type something...'. To the right of the input field is a blue button with a magnifying glass icon and the text 'Go'. Below the search bar, on the right side, is a link labeled 'Saved Searches' with a small icon.

NOTE: The traditional full search tools are useful when you want to search within each module (Award, Institutional Proposal, Subaward, Proposal Development, etc.). To utilize the full search tools, navigate to the Common Tasks page and click on the search option under the appropriate module.

How do I search?

Type in your search criteria and click “Go” or press enter to initiate a search.

- You may type in one word or a combination of words.
- You may use the search operator “-” to remove specific values from your results.
- You may use double quotes for phrases or strings of text (e.g., “apple tree,” “301000-00001”) but not with search operators.
- You cannot search multiple values of the same item simultaneously (e.g., acct 5212345 and acct 4301234).
- Keep in mind, when performing a search, it may return results that contain only a portion of that value (e.g., searching 320101 and will match with 1320101).

Below are some example of simple searches:

Doing a broad search by name may result in too many results.

A search bar with a dropdown menu labeled 'Search everywhere' and a text input field containing 'Taylor'. To the right of the input field is a blue button with a magnifying glass icon and the text 'Go'.

You can add the document type of the desired records in the search to help limit your results by module.

A search bar with a dropdown menu labeled 'Search everywhere' and a text input field containing 'taylor institutionalproposal'. To the right of the input field is a blue button with a magnifying glass icon and the text 'Go'.

Try adding additional search terms in phrases and excluding what you don’t want with a “-”

A search bar with a dropdown menu labeled 'Search everywhere' and a text input field containing 'Taylor "Biomolecular Engineering" -nano'. To the right of the input field is a blue button with a magnifying glass icon and the text 'Go'.

Search for award numbers using quotes (otherwise, the search will misinterpret the “-”).

A search bar with a dropdown menu labeled 'Search everywhere' and a text input field containing '"300734-00002"'. To the right of the input field is a blue button with a magnifying glass icon and the text 'Go'.

Search by the first 6 characters of an award family to return parent and children (-00001, -00002, etc.)

A search bar with a dropdown menu labeled 'Search everywhere' and a text input field containing '300734'. To the right of the input field is a blue button with a magnifying glass icon and the text 'Go'.

Searching by account number will return awards and subawards funded by that account number.

Narrow Search by category

Narrow your searches by clicking on the “Search everywhere” drop-down to see a list of all the available searchable categories and select one. This will allow you to target which columns you’d like to search within using specific values instead of searching across all columns. If you are getting lots of unwanted results, using the category limits here is highly recommended.

NOTE: If you'd rather not look through the categories, you may also filter it by typing keywords.

Show/Hide Columns

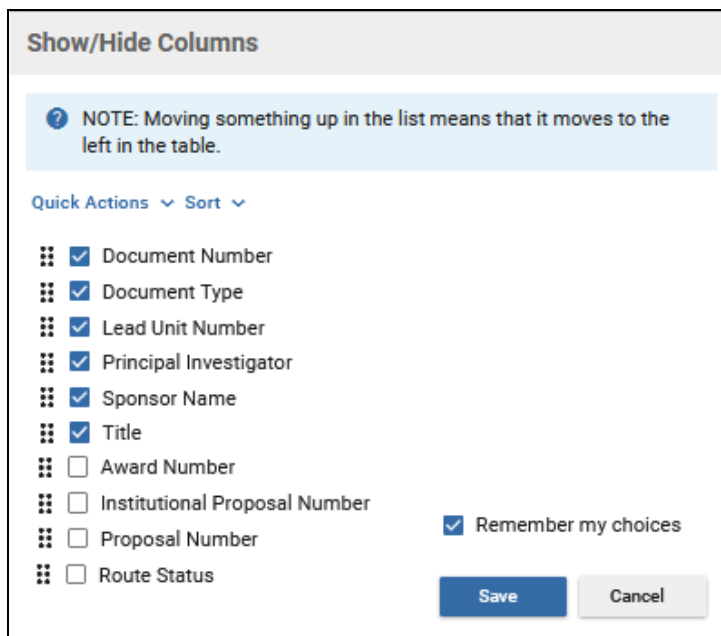

After you've performed a search, you will see a "Show/Hide Columns" button available, which allows you to select which columns you want to be visible in your search results. The button is located on the search results screen's far-right and appears only after your initial search results are displayed.

Adding Columns

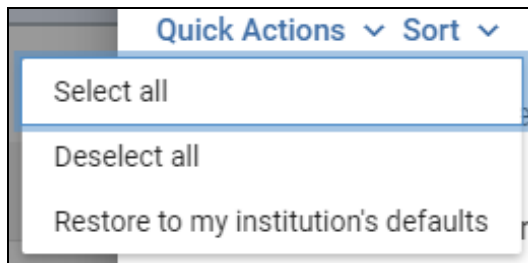

If you check a column checkbox, it will be visible in your search results. By default, "Remember my choices" at the bottom of the list is checked, which will save the columns displayed but is limited to the browser and computer you are using.

You may manually reorder your results by clicking on the six dots  by a column and dragging and dropping to the desired location.

Quick Actions

If you click on "Quick Actions," you can select or deselect all columns or restore the original defaults.

Sort Drop-Down

Clicking on “Sort” allows you to move all the checked columns together at the top for readability or sort A-Z, Z-A. The higher a column is on the list, the more leftmost it will be in your search results.

Multiple Rows for the Same Institute Proposal, Award, or Subaward

As ORA makes updates to records throughout the day on Institute Proposals, Awards, and Subawards your search results may show the same item twice in two unique situations. Below are a few tips to help you decide which one would be best to view, but if you're not sure, you can always do a full search in the appropriate module by visiting the Common Tasks page, which will show one result per record.

Currently Being Updated

If ORA is in the process of updating a record, you will see that one item has a Route Status of "FINAL" and one item has "SAVED." You will want to view the current record in a "FINAL" route status in this case. (You can add Route Status as a column in Show/Hide Columns above your search results)

Document Type	Principal Investigator	Sponsor Name	Document Number	Account Id	Award Number	Route Status
Award	Doe, Jane	USDA-Agricultural Research Service	3200001	5200321	000789-00001	FINAL
Award	Doe, Jane	USDA-Agricultural Research Service	3610008	5200321	000789-00001	SAVED

Recently Updated and Finalized that Day

If ORA just recently updated a record that day, you may see two results that both have a "FINAL" Route Status. In this situation, you will want to open the higher of the Document Numbers you see listed here. NOTE: This is a temporary artifact after ORA finalizes an update. A nightly process cleans these duplicate entries up, and the next day there will be only one result instead of two.

Document Type	Principal Investigator	Sponsor Name	Document Number	Account Id	Award Number	Route Status
Award	Doe, John	NSF	3380001	5200123	000123-00001	FINAL
Award	Doe, John	NSF	3955432	5200123	000123-00001	FINAL

Search Tips!

- Use the "Search Everywhere" dropdown to limit your results by category if too many items are listed. Narrowing down results with this flexible tool will allow you to perform targeted searches.
- In your search results, click on the Column Headers to sort any column in A-Z or Z-A order.
- Based on what your criteria are, you may want to change the columns that are displayed in your results to better suit your returned results via the Show/Hide Columns button.
- Use multiple words or a phrase with quotes in the "Search Everywhere" field to narrow your search down as needed. Phrases with quotations cannot be used in Category limits.
- Using the "*" as a wildcard to search is superfluous. You can enter a short string to simulate the same type of query within the search bar OR in a category. For example, searching "cano" will return results for "Canon", "canopies", "Canonical", etc.
- Search results do not include canceled development proposals. Use the Common Tasks page to view the Proposal Development Full Search screen and retrieve a proposal that was canceled.
- When searching by an award number, use the first six digits to pull all awards within a family or enter an award number in quotes to pull results based on that single award.
- When searching for awards by account number, keep in mind some account numbers were reused in the past but only one would have an Active Status at any single time while all others are Closed.

Column Suggestions

After performing searches, you may feel that you are missing some key fields that would help you differentiate records from each other, or you may find it challenging to understand why you are getting certain results. Adding more Columns to display in your search results with the “Show/Hide Columns” tool can help in successfully navigating your returned results. We have listed some suggestions below based on the document type. You can mix and match or use any of the other available fields to suit your needs better.
