About the Cisco Unity Connection Web Inbox

The Cisco Unity Connection Web Inbox lets you manage voice messages and any voice message receipts you receive. You can compose new voice messages, and play, reply to, forward, or delete the voice messages you receive.

Access the Web Inbox by using an Internet browser to go to

<https://vm.umd.edu/ciscopca>

Click on “Web Inbox.”

The screenshot displays the Cisco Unity Connection Web Inbox interface. The top navigation bar includes the Cisco logo, "Cisco Unity Connection Web Inbox", and user options: "kbader", "Sign Out", and "About". Below the navigation bar are tabs for "Messages", "Settings", and "Routing Rules". The "Messages" tab is active, showing a list of messages in the "Inbox" folder. The list includes columns for "From", "Subject", "Received", and "Duration".

From	Subject	Received	Duration
Pat Jones	FW: Came by and left the specs on your desk...	2:27 PM	25.4s
Robin Smith	RE: Urgent query	2:03 PM	6.1s
Robin Smith	Urgent query	1:56 PM	6s
Robin Smith	Delivery Status Notification (Read)	Monday, 5:10 PM	0s
Robin Smith	This Message is Private ... forgot to add (private info)	Monday, 4:41 PM	13.1s
Robin Smith	Urgent info on the project	Monday, 4:40 PM	5.8s

At the bottom of the interface, there is a volume control slider, a page indicator "1 - 6 of 6", a search box with "5000" entered, and buttons for "Phone" and "Computer".

Web Inbox Controls

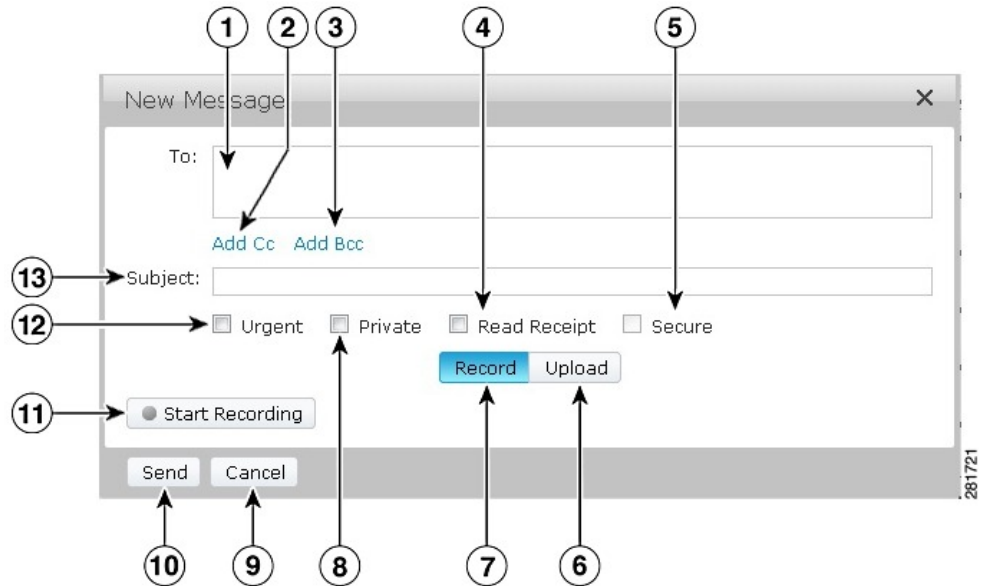

1	Open the Messaging Assistant in a new browser window or tab.	6	Refresh the information on the current page.
2	Open the Cisco Unity Connection Personal Call Transfer Rules web tool in a new browser or tab.	7	Compose a new voice message.
3	<i>(Display only)</i> The account with which you are signed in.	8	View or manage messages in your Sent folder. <i>(not available)</i>
4	Sign out of Web Inbox and return to the sign-in page.	9	View or manage messages in your Deleted Items folder.
5	View Web Inbox information.	10	View or manage messages in your Inbox folder.

Audio Controls

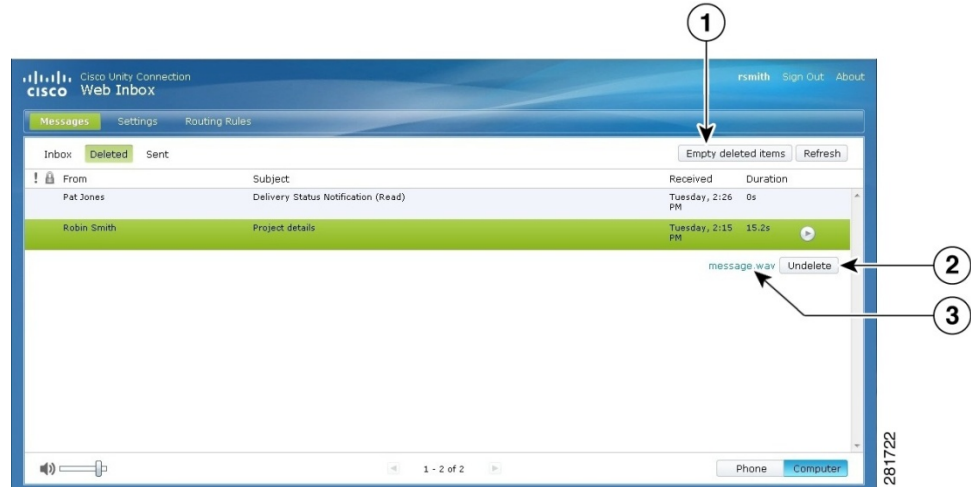

1	Change the audio playback volume. (Available only when Computer is selected as the playback and recording device.)	3	Cisco Unity Connection calls you at the extension you enter in the text box to make a recording or to play audio. You speak and listen through the phone handset or speakerphone.
2	View the number of messages in the folder and scroll through pages of messages if there are more than 25 messages in the folder.	4	Unity Connection uses the computer microphone and speakers or other default audio device to make a recording or to play audio.

Composing a New Message

1	Enter the first one or more letters of a user's name (first, last, or username). Cisco Unity Connection automatically suggests users whose names match your entry.	8	Mark the message Private.
2	Open the Cc recipients field to enter additional recipients who will receive a copy of the message.	9	Discard the message without sending or saving it.
3	Open the Bcc recipients field to enter additional recipients who will receive a blind copy of the message.	10	Send the message.
4	Request a read receipt for the message.	11	In Record mode, select Start Recording to use the Phone or Computer audio device. In Upload mode, select Upload File (not pictured here) to use a prerecorded audio file.
5	Mark the message Secure. (If you mark the message as Private, it will be marked as Secure.)	12	Mark the message Urgent.
6	Select Upload mode.	13	Enter the subject of the message.
7	Select Record mode.		

Deleted Folder

1	Permanently delete all items in the Deleted folder.	3	Right-click to download the message audio and save the file on your computer. (This option is not available.)
2	Move the selected message back to the Inbox folder.		

Frequently Asked Questions

Q. Can I send voice messages to my private lists from the Web Inbox?

A. Yes.

Q. Can I use Cisco Unity Connection to send, receive, or view faxes?

A. No, fax functionality is not available with Cisco Unity Connection.

Q. Why are the messages I send not available in the Sent folder?

A. The system has not been configured to save sent messages.

Q. When I record audio for a message, can I play back the recording?

A. There is currently no way to play back a recording in Web Inbox before sending the message.
